Chaperon Newsletter No. 02/2020

PhD and postdoc positions still available

We are seeking students for several Ph.D. study topics as well as postdoctoral fellows in translational cancer research (molecular biology, immunology, bioinformatics). Click [here](#) for more details.

New acquisition in our team

A new member has joined the team in October. Filip Ambrozkiewicz, coming to us from Maria Sklodowska-Curie National Research Institute of Oncology in Poland, has started on a postdoc position. His research interest lies in colon cancer. What other interests does he pursue? Find more in an [interview](#) .
