
I. Section - Excellent Science

EXCELLENT SCIENCE

Horizon 2020 objectives in Excellent Science:

The goal of Excellent Science is primarily to support excellent research and create the conditions for excellent research. The main priorities are: to develop talent in Europe, to give researchers access to top-class research infrastructures, to enable researchers to be mobilized, to support cross-border research projects and to develop new ambitious technologies.

Actions of the I. Section - Excellent Science

- European Research Council ([Petra Fedorová- Peroutková](#) is a national contact in the Czech Republic)
- Future and Emerging Technologies ([Petr Pracna](#) is a national contact in the Czech Republic)
- Marie Skłodowska-Curie actions ([Petra Fedorová- Peroutková](#) is a national contact in the Czech Republic)
- Research Infrastructures, including e-Infrastructures ([Dominika Zsapková- Haringová](#) is a national contact in the Czech Republic)
