
III. Section - Societal Challenges

SOCIETAL CHALLENGES

Horizon 2020 objectives in Societal Challenges:

Societal Challenges supports the research of the key issues and challenges facing European societies such as health, energy or transport. Project solutions based on so-called social challenges should lead to the interconnection of resources and knowledge across different areas, technologies and disciplines, including the social and human sciences. This is a wide range of activities from research to production. Great emphasis is focused on activities related to innovation (production verification, new product testing, public procurement support, marketing innovation).

Actions of the III. Section - Societal Challenges

- Health, Demographic Change and Wellbeing ([Eva Sebroňová](#) is a national contact in the Czech Republic)
- Food Security, Sustainable Agriculture and Forestry, Marine, Maritime and Inland Water Research and the Bioeconomy ([Naďa Koničková](#) is a national contact in the Czech Republic)
- Secure, Clean and Efficient Energy ([Veronika Korittová](#) is a national contact in the Czech Republic)
- Smart, Green and Integrated Transport ([Martin Škarka](#) is a national contact in the Czech Republic)
- Climate Action, Environment, Resource Efficiency and Raw Materials ([Jana Čejková](#) is a national contact in the Czech Republic)
- Europe in a Changing World - Inclusive, Innovative and Reflective Societies ([Michal Pacvoň](#) is a national contact in the Czech Republic)
- Secure Societies - Protecting Freedom and Security of Europe and its citizens ([Eva Hillerová](#) is a national contact in the Czech Republic)
