
Key action 3

Support for Policy Reform

Objectives of the Support for Policy Reform are: supporting a structured dialogue with young people, supporting the exchange of best practices, making reliable and available comparative international data and analyzes, fostering international cooperation and mutual learning between relevant authorities at the highest political level, improving the quality and efficiency of education systems.

Preferably supported activity:

Structured dialogue: Young people's decision-making meetings in the youth field

This key action also includes other actions to support policy reform in the field of education, training and youth. These activities are carried out directly by the European Commission or are carried out on the basis of specific calls for proposals, managed by the Executive Agency.

Other activities:

- Studies on policy issues and policy reforms
- Supporting the involvement of countries in European/international surveys. Surveys are focused on monitoring particular trends and developments, including the development of language knowledge in the Europe
- EU Presidency events and conferences and high-level meetings
- Exchange of experience and best practices and peer review
- Initiatives to anticipate innovative policies or prepare for their implementation
- Collaboration with international organizations (OECD, the Council of Europe, etc.)
